COPY MAILED

JUN 06 2008

Applicant: Zhi.
Appl. No.: 10/566,569
International Filing Date: August 23, 2004
Title: 6-CYCLOAMINO-2-QUINOLINONE DERIVATIVES AS ANDROGEN RECEPTOR
MODULAR COMPOUNDS
Attorney Docket No.: 18202-030ua1/1111US
Pub. No.: US 2007/0066650 A1
Pub. Date: March 22, 2007

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on May 10, 2007, for the above-identified application.

Applicant requests that the application be republished because the patent application publication contains materials error in claims 13, 22 and 24.

The request is **granted**.

The corrected patent application publication will be published in due course, unless the patent issues before the application is republished.

It would greatly benefit the Office if **applicant did not provide copies of papers**, which were previously submitted, and/or **complete copies of the pre-grant publication**, as it unnecessarily increases the cost to the Office. See 37 CFR 1.4(b). A request for corrected publication need only point out what was printed incorrectly in the application, where the error occurs in the publication and where the correct text or drawing is found in the application papers. Marked up relevant copies of the applications papers and the pre-grant publication may facilitate processing of the request, where it is not readily apparent where the error occurs. If it is not clear why the error is a material error, further explanation may be warranted.

Inquiries relating to this matter may be directed to Mark Polutta at (571) 272-7709.
